World-Wide Terrorism 2017

January 1st Through June 4th 640 Incidents (Wikipedia)
Addressing the Caliphate State ISIS/DAESH and Al-Qaeda

The Jihad terrorist problem has many horrific and haunting dimensions: (death, destruction, mass murder, chaos/bedlam, women & children slave-trade, genocide and merciless torture & savage killings [beheadings, crucifixions, maiming and roasting people alive]).

1. ACTION BASED PARTICIPATORY WORLD-WIDE COALITION

[IT IS EVERYONE'S PROBLEM]: ISIS/DAESH and Al-Qaeda have not only declared war on the United States of America and Europe, but have taken their Jihadist brutal and inhumane war world-wide. The Jihadist terrorist's barbaric activity is all-pervasive. World leaders must come together to form an effective *Action Based* participatory coalition [everyone has '*skin in the game*'] to directly address the Jihadist war. With this recent escalation of Jihad-driven terrorism, each country's citizens must come to terms with and acquire a better understanding of the greater dynamic of the vicious, haunting and horrific activities that are *constantly* taking place around the world. President Trump has begun to bring together an ACTION BASED PARTICIPATORY COALITION.

2. JIHAD WORLD-WIDE PROBLEM MUST BE IMMEDIATELY ADDRESSED (NO ONE SITTING ON THE SIDELINES): The Caliphate State recruited Jihadist fighters from over 100 countries. Trained Jihadist terrorists have left Iraq and Syria to take their war of the Caliphate State world-wide. The Jihadist fighters in Iraq & Syria from 100 countries are returning home. The Jihadist terrorist networks, *home-grown* Jihadists and Jihadist sympathizers have deeply penetrated into societal structures. Hence, the terrorist cells are not easy to track. We must all be vigilant and “situationally aware” in addressing these terrorist Jihadist matters. President Trump’s Executive Orders (13769/13780) ‘*hit the nail right on the head*’ to identify the “hotspots” (*Syria, Yemen, Libya, Somalia, Iran & Sudan*) which must be directly addressed to prevent the United States from being attacked. Title 8 of the United States Code 1182 – Inadmissible aliens.
3. HYBRID ASYMMETRICAL GUERILLA WARFARE TACTICS [ANYTHING GOES]: With the Jihadist terrorists, we are dealing with *hybrid asymmetrical guerilla warfare tactics* never before seen on this insidious clandestine infiltration scale. Jihadists are taught sophisticated spy trade craft. They are not easily detected which makes it extremely important to have effective enforcement and investigative measures in place to reduce risks and exposures for stopping Jihadist terrorism. President Trump understands the nature of the Jihad terrorist beast. He is working closely with the NSC (H.R. McMaster), DHS (John Kelly), DOJ (Jeff Sessions), U.S. Military (James ‘Mad Dog’ Mattis) and the State Department (Rex Tillerson) to ensure our U.S. citizens are safe and secure.

4. JIHAD UNDER THE RADAR [3 L's = LOOK, LISTEN & LEARN]: Jihadist terrorist networks intricately work *under the radar* in the underground economy, blackmarket and informal sector. A Jihadist Caliphate terrorist -- like any other desperate terrorist or criminal -- will lie, cheat, steal and kill to go undetected. Keep this in mind. The Jihadist *commits suicide (martyrdom)* for their religious cause. The goal is to kill as many people as possible to leave a large impact. Local citizens are the last thing on their mind. We cannot give the Jihadist and those who aid and abet Jihadists any quarter. President Trump emphasizes the nature of the Jihad terrorism in his speeches. He is establishing sound *Law & Order* programs to *Keep America Safe & Secure*.

5. BORDERLESS JIHAD: Jihadist terrorism incidents are not isolated. Jihad brutal attacks have ever increased and are borderless. Jihad attacks are beginning to happen with more frequency: anytime, anyplace and anywhere. President Trump has called for the protection of our borders. Border protection was his promise to the American people which he is delivering on now.

<http://www.npr.org/2017/05/31/530843658/illegal-border-crossings-are-down-and-so-is-business-for-smugglers>

6. THE AVERAGE CITIZEN IS BECOMING IMMUNE [TOO MUCH VIOLENCE - NEGATIVITY] - SIMPLE & EFFECTIVE MESSAGING NEEDED: There is not a *clear and present danger* understanding about Jihadist Terrorism because of *information overload* and *psychic numbing* - dealing with the large amount and frequency of the world-wide terrorist incidents. Simple and effective messaging must be employed. President Trump continually stands up against the Jihad attacks so Americans know what is going on around the world emphasizing how the U.S. borders need to be protected.

https://en.wikipedia.org/wiki/Information_overload

7. PROPERLY REEDUCATE, ALERT AND INFORM THE GLOBAL GENERAL PUBLIC TO STOP JIHAD TERRORISTS: Around the world, the general public needs to be reeducated and properly informed about clear measures which support larger efforts to stop the Jihad attacks. President Trump is dead set on stopping the Jihad attacks on American soil.

CNN History Of Islamic State & Al-Qaeda in Iraq and Syria.

<http://www.cnn.com/2014/08/08/world/isis-fast-facts/>

(CNN) Here's a look at Islamic State in Iraq and Syria (ISIS).

Facts:

Started as an al Qaeda splinter group.

Also known as Islamic State in Iraq and the Levant (ISIL) and Islamic State (IS). ISIS aims to create an Islamic state called a caliphate across Iraq, Syria and beyond.

The group is implementing Sharia Law, rooted in eighth century Islam, to establish a society that mirrors the region's ancient past.

ISIS is known for killing dozens of people at a time and carrying out public executions, crucifixions and other acts.

ISIS uses modern tools like social media to promote reactionary politics and religious fundamentalism. Fighters are destroying holy sites and valuable antiquities even as their leaders propagate a return to the early days of Islam.

In 2014, ISIS controlled more than 34,000 square miles in Syria and Iraq, from the Mediterranean coast to south of Baghdad. At the end of 2016, ISIS territory had shrunk to about 23,320 square miles, according to IHS Jane's.

In 2015, ISIS was believed to be holding 3,500 people as slaves, according to a United Nations report. Most of the enslaved were women and children from the Yazidi community, but some were from other ethnic and religious minority communities.

Dabiq, Syria, "is where the Prophet Mohammed is supposed to have predicted that the armies of Islam and 'Rome' would meet for the final battle that will precede the end of time and the triumph of true Islam," according to CNN National Security Analyst Peter Bergen.

ISIS's strategy for revenue includes oil production and smuggling, taxes, ransoms from kidnappings, selling stolen artifacts, extortion and controlling crops.
